Hi Selvin, please see below and attachments from Kimberly – they are under an EPA order to comply with the MSGP and get a permit or eliminate the non stormwater discharges observed during her inspection.

Please let us know how the meeting goes and if you need anything else please give Kimberly a call.

Thanks Doug

Hi Doug,

Attached is the Administrative Order that required GMD to obtain SPDES permit coverage for the unpermitted non-stormwater discharges from the site's sump pumps, stripping pumps and main pumps (that are not covered under their MSGP). Here's the Order exact language:

"Eliminate unauthorized non-stormwater discharges, including but not limited to the discharges listed below, or submit a permit application to NYSDEC, with a copy to EPA, to obtain SPDES permit coverage for non-stormwater discharges to the East River from the Facility..."

Also attached is an overdue notice we just sent GMD.

Let me know if you need anything else.

Kim

Doug,

We have a SPDES permit pre-application meeting scheduled with GMD Shipyard next week Tuesday. Their consultant, Tom Kunckel, said that they were advised by EPA that they had to apply for coverage under an individual SPDES permit. Can you send me a copy of your letter to GMD.

Thanks  
Selvin
